

Proposed new Indoor Tennis Arena, over 5 courts for the Counties Tennis Region. What does this mean? For those who love picking up a racquet this means a great deal. You will now be able to enjoy the game of tennis all year round, without weather interference. This is the biggest new development that is taking place in our tennis community for a long time. We will now be able to continue and grow the sport of tennis in our region and take it to the next level. The new Counties Indoor Tennis Arena will be a vibrant central hub for the community to utilise.

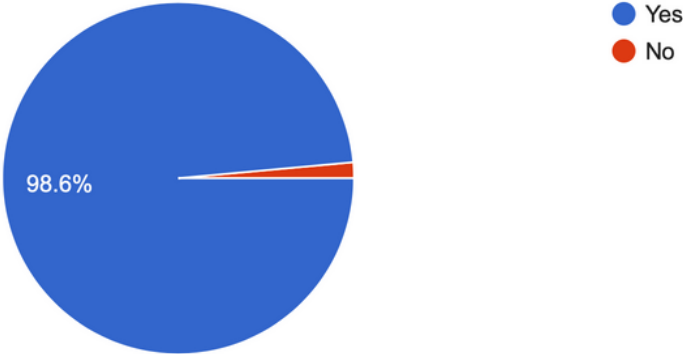

Where did you hear about the new Counties Indoor Tennis Arena?

138 responses

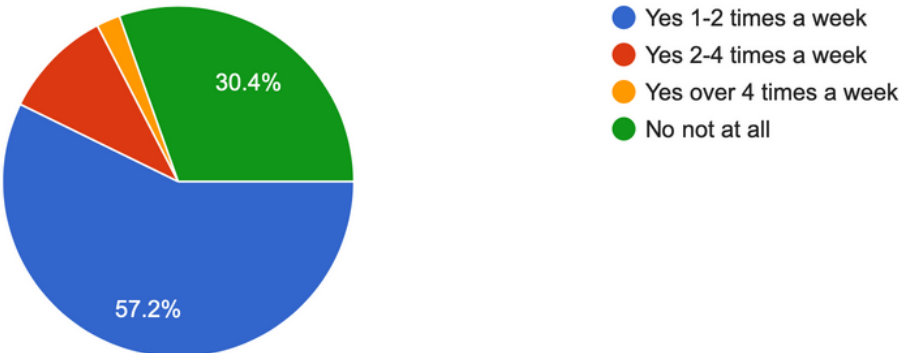

Would you like to have the option of playing tennis all year round?
